

Technical Data Sheet for GYLON® white (Style 3510)

Product name: GYLON® white (Style 3510)

Composition: PTFE + Barium Sulphate

Color: white

Properties	Measuring Method	Unit	Specification
Density	ASTM F-104	g/cm ³	2,80
Tensile Strength	ASTM F-104	N/mm ²	13,8
Elongation at tear	ASTM F-104	N/mm ²	9,65

Authorizations and certificates: FDA

The mentioned values are mean values of a limited number of tests with norm test sample according to GKV coming from laboratory production.

The data received on pre-assembled units can vary in dependence on the product procedure and the part geometry from above mentioned values.
