

ZENZA®

Lookbook 2022

About us

When we create our collections we always ask ourselves if something adds *soul* to a room. We are always looking for ways to make a house feel like a home. It's all about making the *mood* right, understanding how to create an atmosphere and, for us, the art of mastering *light*.

That's what Zenza is all about and what we love to do.

We truly believe in the magic of good vibes. We work *ethically* and fair with our artisans. It's important to us that they can thrive and grow with us. We offer microfinance-loans, for example, so they can be owner of their workshop and create work and independence for themselves. We innovate together, but we also keep *traditions* alive through our products.

So many talented hands and creative minds have worked with us to make this new collection, it became a tribute to *handwork!* Some of our newest pieces are made from really special materials, nature's finest finds!

Getting curious?

We love to show you our creations in this brand-new lookbook. and we are looking forward to another *Zenzational* season together!

With love,

The Zenza team

Home textile

Sabra is the name of this *vegetable silk* from Morocco.

Aloe vera or agave cactus is used to produce these fibres and they are dyed with natural ingredients. An *artisanal* process.

The clean and abstract motives are from Berber origin, often symbolising fertility and protection.

Lighting

Every lamp and every *material* has a story,

be it a brass, alabaster or loofah lamp.

They are all unique and made with *love!*

Alabaster Lamp Ivory L

Alabaster Lamp Ivory S
ALAIVSMHL

Alabaster stone was already known by the pharaohs in Egypt.

The skills nowadays are still used by *the local craftsmen*.

This work has been done over many generations and thousands of years. Both natural alabaster colours are the perfect soft colour for these beautiful disk lamps.

Alabaster Lamp Amber S

Alabaster Lamp Copper M
ALACOPMEHL

Probably you know the *loofah* as a sponge for a good body scrub?

This vegetable has an incredibly detailed surface. It looks like *coral* and other precious materials from the sea.

We gave them a new fabulous life as poetic lampshades. Often designs and patterns that are harvested directly from *nature* are the best!
