

Material test report PTFE virginal

Colour **White**

property	unit	test method	Nominal value	Value
Specific gravity	g/cm ³	GB1033	2,17 ±0,03	2,167
Tensile strength	MPa	GB/T1040	min. 25	29,5
Ultimate elongation	%	GB/T1040	min. 250	310
Hardness	Shore D	GB/T2411	60 ±5	58

Material approvals

FDA-compliant, 21 CFR FDA § 177.1550, SGS test report 3977262

The above indicated data were determined to the best knowledge according to modern laboratory standards on standardised test specimen. If these data are compared with data which were determined on finished parts it may come to variations.
