Artifort®

Pierre Paulin | Design 1954 - Reintroduction 2003

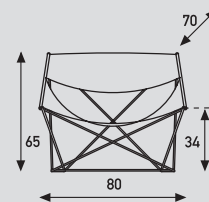

Base:

- Base in massive stainless steel Ø 8 mm (electrolytically polished or powder coat).
- Frame of tubes in three pieces on several points welded with stainless steel and the other connections are spot-welded.
- The sides consists of a loose profile with wire-ends and M6 bolts.
- Foreseen of 4 black caps polypropylene.

Seat- and back:

- Only available in saddle leather 3,5mm thick (colours black or nature) or cowhide (black-white)
- At the back of the cowhide there's saddle leather black visible. This black saddle leather is 2,8mm thick so the total is also approx. 3,5 mm thick.
- The black saddle leather and cowhide are fixed to the base with a round, black lace 4 mm.
- The nature saddle leather is fixed to the base with a round, nature-coloured lace 4 mm.
