

TT-HWA

Tijdelijke HemelWaterAfvoer

The image is a 3D cutaway diagram of a building's exterior wall and roof. The roof is covered in orange tiles. A grey gutter runs along the edge of the roof. Below the gutter, a blue pipe (the TT-HWA system) is installed vertically through the wall. A white circle with a white dot at the end of a line points to this blue pipe, containing the text 'TT-HWA'. To the left of the blue pipe, a grey downspout is shown with water flowing out of it. The wall is made of light-colored bricks. The background shows a clear blue sky.

TT-HWA

Een snelle en goedkope oplossing om de gevel te beschermen tegen wateroverlast tijdens de nieuwbouw.
